\*Please note : We do not climb higher than a two-step ladder. Higher items will only be dusted with an extension duster. Most homes have at least one chandelier or vaulted ceiling fan that we cannot reach by hand. We are unable to guarantee the results of mini-blind cleaning. Excessive build-up may require extra attention, resulting in an additional charge. Please allow for some dust re-settlement after we leave, we try to limit the dust in the air but cannot prevent the entirely.
